Subject index

Acetonitrile
Transport properties of lithium picrate and lithium perchlorate in isodielectric solvents and in their mixtures with the 15-Crown-5 macrocyclic ligand (D'Aprano et al.) 119
Active sites
Partially blocked surface studied by the electrohydrodynamic impedance (Silva et al.) 133
Adsorption
Absorption of deuterium in palladium rods: model vs. experiment (Szpak et al.) 275
Anionic membrane
Equilibrium and transport properties of boron species in anionic membranes (Périé et al.) 107
Anodic polarization
Changes in electrochemical and photoelectrochemical properties of tin-doped indium oxide layers after strong anodic polarization (Kraft et al.) 191
Ascorbic acid
Electrochemistry of ascorbic acid at polypyrrole/dodecyl sulphate film-coated electrodes and its application (Gao et al.) 197
Au electrode
Coadsorption of Cu^{2+} and SO_4^{2-} at the Au(111) electrode (Shi, Lipkowski) 303

Bifunctional reagents
Application of bifunctional reagents for immobilization of proteins on a carbon electrode surface: oriented immobilization of photosynthetic reaction centers (Katz) 157
Boric acid
Equilibrium and transport properties of boron species in anionic membranes (Périé et al.) 107
Buckminsterfullerene
The conductivity of partly-reduced fullerene-doped polychlorostyrene, and of arc-generated carbon byproduct (Down et al.) 311

Capacitance
Frequency-dependent capacitance of microelectrode arrays and characterization of the metal|polymer interface (Ingram et al.) 79
Carbon black support
Oxygen reduction in acid media: influence of the activity of CoNPc(1,2) bilayer deposits in relation to their attachment to the carbon black support and role of surface groups as a function of heat treatment (Biloul et al.) 239
Carbon electrode surface
Application of bifunctional reagents for immobilization of proteins on a carbon electrode surface: oriented immobilization of photosynthetic reaction centers (Katz) 157
Cascade model
Multicomponent layer-by-layer electrocrystallization: cascade model (Bhattacharjee, Rangarajan) 19

CdTe
Dependence of the composition of CdTe semiconductor on conditions of electrodeposition (Chen, Wan) 87
CEC mechanics
CEC mechanisms in the electroreduction of α-dicarbonyl compounds on mercury electrodes (Rodríguez Mellado, Ruiz Montoya) 71
Chain reaction
Chain reaction between 2,6-dichlorobenzaldehyde and fluorene induced by cathodic reduction (Gard et al.) 299
Chronoamperometry
Electrochemistry of ascorbic acid at polypyrrole/dodecyl sulphate film-coated electrodes and its application (Gao et al.) 197
CO
Specular reflectivity study of CO adsorbed on a platinum electrode in acidic solution (Ikezawa et al.) 261
Coadsorption
Coadsorption of Cu^{2+} and SO_4^{2-} at the Au(111) electrode (Shi, Lipkowski) 303
Complex electrode process
Theoretical analysis of Nernstian plots in the thin-layer spectropotentiostatic technique (Xie, Dong) 151
Composition
Composition and photoactivity of lead oxide film prepared on a Pb electrode in the Pb/PbO potential region in 0.1 M NaOH + 0.1 M Na_2SO_4 at 80°C (Veluchamy, Sharon) 179
Compounds
CEC mechanisms in the electroreduction of α-dicarbonyl compounds on mercury electrodes (Rodríguez Mellado, Ruiz Montoya) 71
Concentration dependence
The mirage effect with a supporting electrolyte at constant mass transfer through the diffusion layer (Rosolen et al.) 165
Conductance
Transport properties of lithium picrate and lithium perchlorate in isodielectric solvents and in their mixtures with the 15-Crown-5 macrocyclic ligand (D'Aprano et al.) 119
Conductimetry
The conductivity of partly-reduced fullerene-doped polychlorostyrene, and of arc-generated carbon byproduct (Down et al.) 311
Counter-anion
Strong dependence of the electron-hopping rate in poly-tris(5-amino-1,10-phenanthroline)iron(III/II) on the nature of the counter-anion (Ren, Pickup) 289

Deposition bath
Dependence of the composition of CdTe semiconductor on conditions of electrodeposition (Chen, Wan) 87
Deuterium
Absorption of deuterium in palladium rods: model vs. experiment (Szpak et al.) 275

α-Dicarbonyl
CEC mechanisms in the electroreduction of α-dicarbonyl compounds on mercury electrodes (Rodríguez Mellado, Ruiz Montoya) 71
Double differential pulse
Double differential pulse voltammetry (Camacho et al.) 97

Electrochemical aggregation
Multicomponent layer-by-layer electrocrystallization: cascade model (Bhattacharjee, Rangarajan) 19
Electrochemical reductions
Electrochemical reductions of 2-furoyl chloride, furil and 2-furaldehyde at mercury cathodes in acetonitrile (Urove, Peters) 221
Electrochemical sensors
Conducting-polymer-based electrochemical sensors: theoretical analysis of the transient current response (Lyons et al.) 29
Electrodeposition
The role of intermediates in solution in the initial stages of electrodeposition of polypyrrole (Scharifker, Fermín) 35
Dependence of the composition of CdTe semiconductor on conditions of electrodeposition (Chen, Wan) 87
Electrodialysis
Equilibrium and transport properties of boron species in anionic membranes (Périé et al.) 107
Electrolyte sorption
Equilibrium and transport properties of boron species in anionic membranes (Périé et al.) 107
Electron-hopping rate
Strong dependence of the electron-hopping rate in poly-tris(5-amino-1,10-phenanthroline)iron(III/II) on the nature of the counter-anion (Ren, Pickup) 289
Electron stoichiometry
Theoretical analysis of Nernstian plots in the thin-layer spectropotentiostatic technique (Xie, Dong) 151
Electroreduction
CEC mechanisms in the electroreduction of α-dicarbonyl compounds on mercury electrodes (Rodríguez Mellado, Ruiz Montoya) 71
Ellipsometry
Ellipsometric determinations of the thicknesses of dry and electrolyte-immersed poly(4-vinylpyridine) films containing coordinated light-absorbing $[Os(bpy)_2pvpCl]^{2+/+}$ redox groups (Larsson) 229
Etching
On the etching of InP in alkaline $K_3Fe(CN)_6$ solutions (Vermeir, Gomes) 59

Faradaic response
Double differential pulse voltammetry (Camacho et al.) 97
Films
Ellipsometric determinations of the thicknesses of dry and electrolyte-immersed poly(4-vinylpyridine) films containing coordinated light-absorbing $[Os(bpy)_2pvpCl]^{2+/+}$ redox groups (Larsson) 229
Flat band potential
Electrochemical techniques for the elucidation of the interface structure of the n-InP/aqueous electrolyte junction (Iranzo-Marín et al.) 283
Fluorometry
Ion selectivity of voltage-scan fluorometry at the 1,2-dichloroethane/water interface (Kakiuchi, Takasu) 293
Formal potential
Theoretical analysis of Nernstian plots in the thin-layer spectropotentiostatic technique (Xie, Dong) 151

2-Furaldehyde
Electrochemical reductions of 2-furoyl chloride, furil and 2-furaldehyde at mercury cathodes in acetonitrile (Urove, Peters) 221
Furil
Electrochemical reductions of 2-furoyl chloride, furil and 2-furaldehyde at mercury cathodes in acetonitrile (Urove, Peters) 221
2-Furoyl chloride
Electrochemical reductions of 2-furoyl chloride, furil and 2-furaldehyde at mercury cathodes in acetonitrile (Urove, Peters) 221
Fused electrolytes
Internal reference systems for fused electrolytes (Berghoute et al.) 171

Gold
Frequency-dependent capacitance of microelectrode arrays and characterization of the metal|polymer interface (Ingram et al.) 79
Application of an electrochemical quartz crystal microbalance to a study of water adsorption at gold surfaces in acidic media (Gordon, Johnson) 267
Gold electrodes
Some electrochemical consequences of potential-induced surface reconstruction on Au(100): double-layer nonuniformity and electrode kinetics (Hamelin et al.) 47
Gold oxide
Application of an electrochemical quartz crystal microbalance to a study of water adsorption at gold surfaces in acidic media (Gordon, Johnson) 267

High temperature reference electrodes
Internal reference systems for fused electrolytes (Berghoute et al.) 171

Impedance spectroscopy
Impedance spectroscopy of lithium electrodes. Part 3. The importance of Li electrode surface preparation (Aurbach, Zaban) 41
n-InP
Electrochemical techniques for the elucidation of the interface structure of the n-InP/aqueous electrolyte junction (Iranzo-Marín et al.) 283
Interface structure
Electrochemical techniques for the elucidation of the interface structure of the n-InP/aqueous electrolyte junction (Iranzo-Marín et al.) 283
Internal reference systems
Internal reference systems for fused electrolytes (Berghoute et al.) 171
Ionic transfer
A quantitative method of describing ionic transfer processes in electrolytes under metal corrosion (Engelhardt, Strehblow) 7
Ion migration
The mirage effect with a supporting electrolyte at constant mass transfer through the diffusion layer (Rosolen et al.) 165
Irreversible dimerizations
Electrochemical reactions with protonations at equilibrium Part XVI. The $1e^-,2H^+$ ladder scheme followed by irreversible dimerizations (Laviron) 1

Ladder scheme
Electrochemical reactions with protonations at equilibrium Part XVI. The $1e^-,2H^+$ ladder scheme followed by irreversible dimerizations (Laviron) 1
Layer-by-layer
Multicomponent layer-by-layer electrocrystallization: cascade model (Bhattacharjee, Rangarajan) 19

Lead oxide film
Composition and photoactivity of lead oxide film prepared on a Pb electrode in the Pb/PbO potential region in 0.1 M NaOH + 0.1 M Na_2SO_4 at 80°C (Veluchamy, Sharon) 179
Ligand catalysis
The parameters of polarographic catalymetry using ligand catalysis (Tur'yan) 185
Lithium electrodes
Impedance spectroscopy of lithium electrodes. Part 3. The importance of Li electrode surface preparation (Aurbach, Zaban) 41
Lithium perchlorate
Transport properties of lithium picrate and lithium perchlorate in isodielectric solvents and in their mixtures with the 15-Crown-5 macrocyclic ligand (D'Aprano et al.) 119
Lithium picrate
Transport properties of lithium picrate and lithium perchlorate in isodielectric solvents and in their mixtures with the 15-Crown-5 macrocyclic ligand (D'Aprano et al.) 119

Mass transport
Partially blocked surface studied by the electrohydrodynamic impedance (Silva et al.) 133
Mercury electrodes
The electrochemistry of tributyltin at mercury electrodes in aqueous media (Bond et al.) 125
Metal corrosion
A quantitative method of describing ionic transfer processes in electrolytes under metal corrosion (Engelhardt, Strehblow) 7
Microelectrode arrays
Frequency-dependent capacitance of microelectrode arrays and characterization of the metal|polymer interface (Ingram et al.) 79
Mirage effect
The mirage effect with a supporting electrolyte at constant mass transfer through the diffusion layer (Rosolen et al.) 165
MnO_2 cathode materials
Spectro-electrochemical studies on production and role of soluble Mn(III) species in discharge and recharge of various MnO_2 cathode materials (Qu et al.) 247

Nernstian plots
Theoretical analysis of Nernstian plots in the thin-layer spectropotentiostatic technique (Xie, Dong) 151
N-oxides
Study of the reduction mechanism of the N-oxides of pyridine monocarboxylic acids at mercury electrodes (Zón et al.) 213

Optoelectrical impedance
On the etching of InP in alkaline $K_3Fe(CN)_6$ solutions (Vermeir, Gomes) 59
$[Os(bpy)_2pvpCl]^{2+/+}$ redox groups
Ellipsometric determinations of the thicknesses of dry and electrolyte-immersed poly(4-vinylpyridine) films containing coordinated light-absorbing $[Os(bpy)_2pvpCl]^{2+/+}$ redox groups (Larsson) 229
Oxidation
Electrochemistry of ascorbic acid at polypyrrole/dodecyl sulphate film-coated electrodes and its application (Gao et al.) 197
Oxygenation catalysts
Electrochemistry of oxygenation catalysts. Part 4. Solvent-composition-dependent isopotential points in cyclic voltammograms of $Co(SALEN)^+$ (Eichhorn, Speiser) 207
Oxygen reduction
Oxygen reduction in acid media: influence of the activity of CoNPc(1,2) bilayer deposits in relation to their attachment to the carbon black support and role of surface groups as a function of heat treatment (Biloul et al.) 239

Pb electrode
Composition and photoactivity of lead oxide film prepared on a Pb electrode in the Pb/PbO potential region in 0.1 M NaOH + 0.1 M Na_2SO_4 at 80°C (Veluchamy, Sharon) 179
Photoactivity
Composition and photoactivity of lead oxide film prepared on a Pb electrode in the Pb/PbO potential region in 0.1 M NaOH + 0.1 M Na_2SO_4 at 80°C (Veluchamy, Sharon) 179
Photosynthetic reaction centers
Application of bifunctional reagents for immobilization of proteins on a carbon electrode surface: oriented immobilization of photosynthetic reaction centers (Katz) 157
Platinum electrode
Specular reflectivity study of CO adsorbed on a platinum electrode in acidic solution (Ikezawa et al.) 261
Polarographic catalymetry
The parameters of polarographic catalymetry using ligand catalysis (Tur'yan) 185
Polarography
CEC mechanisms in the electroreduction of α-dicarbonyl compounds on mercury electrodes (Rodríguez Mellado, Ruiz Montoya) 71
Study of the reduction mechanism of the N-oxides of pyridine monocarboxylic acids at mercury electrodes (Zón et al.) 213
Polyborates
Equilibrium and transport properties of boron species in anionic membranes (Périé et al.) 107
Poly(*N*-vinylcarbazole)
Electrochemical preparation and study of poly(*N*-vinylcarbazole) as a sensing layer for propylamine vapour (Papež, Josowicz) 139
Polypyrrole
The role of intermediates in solution in the initial stages of electrodeposition of polypyrrole (Scharifker, Fermín) 35
Poly-tris(5-amino-1,10-phenanthroline)iron(III/II)
Strong dependence of the electron-hopping rate in poly-tris(5-amino-1,10-phenanthroline)iron(III/II) on the nature of the counter-anion (Ren, Pickup) 289
Poly(4-vinylpyridine)
Ellipsometric determinations of the thicknesses of dry and electrolyte-immersed poly(4-vinylpyridine) films containing coordinated light-absorbing $[Os(bpy)_2pvpCl]^{2+/+}$ redox groups (Larsson) 229
Potential-induced surface reconstruction
Some electrochemical consequences of potential-induced surface reconstruction on Au(100): double-layer nonuniformity and electrode kinetics (Hamelin et al.) 47
Potentiodynamic anodization
Composition and photoactivity of lead oxide film prepared on a Pb electrode in the Pb/PbO potential region in 0.1 M NaOH + 0.1 M Na_2SO_4 at 80°C (Veluchamy, Sharon) 179
Propylamine
Electrochemical preparation and study of poly(*N*-vinylcarbazole) as a sensing layer for propylamine vapour (Papež, Josowicz) 139
Propylene carbonate
Impedance spectroscopy of lithium electrodes. Part 3. The importance of Li electrode surface preparation (Aurbach, Zaban) 41
Protein immobilization
Application of bifunctional reagents for immobilization of proteins on a carbon electrode surface: oriented immobilization of photosynthetic reaction centers (Katz) 157
Protonations
Electrochemical reactions with protonations at equilibrium Part

XVI. The $1e^-,2H^+$ ladder scheme followed by irreversible dimerizations (Laviron) 1
Pyridine monocarboxylic acids
Study of the reduction mechanism of the N-oxides of pyridine monocarboxylic acids at mercury electrodes (Zón et al.) 213

Quartz-crystal microbalance
Application of an electrochemical quartz crystal microbalance to a study of water adsorption at gold surfaces in acidic media (Gordon, Johnson) 267
Quasi-metallic
Changes in electrochemical and photoelectrochemical properties of tin-doped indium oxide layers after strong anodic polarization (Kraft et al.) 191

Reaction kinetics
CEC mechanisms in the electroreduction of α-dicarbonyl compounds on mercury electrodes (Rodríguez Mellado, Ruiz Montoya) 71
Redox reactions
Electrochemistry of oxygenation catalysts. Part 4. Solvent-composition-dependent isopotential points in cyclic voltammograms of $Co(SALEN)^+$ (Eichhorn, Speiser) 207
Reduction mechanism
Study of the reduction mechanism of the N-oxides of pyridine monocarboxylic acids at mercury electrodes (Zón et al.) 213
Refractive indices
Ellipsometric determinations of the thicknesses of dry and electrolyte-immersed poly(4-vinylpyridine) films containing coordinated light-absorbing $[Os(bpy)_2pvpCl]^{2+/+}$ redox groups (Larsson) 229
Rotating disc electrode
On the etching of InP in alkaline $K_3Fe(CN)_6$ solutions (Vermeir, Gomes) 59
Partially blocked surface studied by the electrohydrodynamic impedance (Silva et al.) 133
Rotating disk electrode
Electrochemistry of ascorbic acid at polypyrrole/dodecyl sulphate film-coated electrodes and its application (Gao et al.) 197
Rotating ring–disc electrode
On the etching of InP in alkaline $K_3Fe(CN)_6$ solutions (Vermeir, Gomes) 59

Semiconductor/electrolyte junction
Electrochemical techniques for the elucidation of the interface structure of the n-InP/aqueous electrolyte junction (Iranzo-Marín et al.) 283
Sensing layer
Electrochemical preparation and study of poly(*N*-vinylcarbazole) as a sensing layer for propylamine vapour (Papež, Josowicz) 139
Solvent composition effects
Electrochemistry of oxygenation catalysts. Part 4. Solvent-composition-dependent isopotential points in cyclic voltammograms of $Co(SALEN)^+$ (Eichhorn, Speiser) 207
Specular reflectance
Specular reflectivity study of CO adsorbed on a platinum electrode in acidic solution (Ikezawa et al.) 261
Standardization
Internal reference systems for fused electrolytes (Berghoute et al.) 171
Supporting electrolyte
The mirage effect with a supporting electrolyte at constant mass transfer through the diffusion layer (Rosolen et al.) 165
S_{RN^1} reactions
Chain reaction between 2,6-dichlorobenzaldehyde and fluorene induced by cathodic reduction (Gard et al.) 299
Surface confined
The electrochemistry of tributyltin at mercury electrodes in aqueous media (Bond et al.) 125
Surface hydration
Application of an electrochemical quartz crystal microbalance to a study of water adsorption at gold surfaces in acidic media (Gordon, Johnson) 267
Surface preparation
Impedance spectroscopy of lithium electrodes. Part 3. The importance of Li electrode surface preparation (Aurbach, Zaban) 41

Thickness measurement
Ellipsometric determinations of the thicknesses of dry and electrolyte-immersed poly(4-vinylpyridine) films containing coordinated light-absorbing $[Os(bpy)_2pvpCl]^{2+/+}$ redox groups (Larsson) 229
Thin-layer spectropotentiostatic technique
Theoretical analysis of Nernstian plots in the thin-layer spectropotentiostatic technique (Xie, Dong) 151
Tin-doped indium oxide
Changes in electrochemical and photoelectrochemical properties of tin-doped indium oxide layers after strong anodic polarization (Kraft et al.) 191
Tributyltin
The electrochemistry of tributyltin at mercury electrodes in aqueous media (Bond et al.) 125

UV spectroscopy
Study of the reduction mechanism of the N-oxides of pyridine monocarboxylic acids at mercury electrodes (Zón et al.) 213

Voltage-scan
Ion selectivity of voltage-scan fluorometry at the 1,2-dichloroethane/water interface (Kakiuchi, Takasu) 293
Voltammetry
CEC mechanisms in the electroreduction of α-dicarbonyl compounds on mercury electrodes (Rodríguez Mellado, Ruiz Montoya) 71
Electrochemistry of ascorbic acid at polypyrrole/dodecyl sulphate film-coated electrodes and its application (Gao et al.) 197
Study of the reduction mechanism of the N-oxides of pyridine monocarboxylic acids at mercury electrodes (Zón et al.) 213

X-ray diffraction
Absorption of deuterium in palladium rods: model vs. experiment (Szpak et al.) 275
